APPROVE OF ACTION MEMORANDUM AND WORK PLAN FOR SITE 9 TIME-CRITICAL REMOVAL ACTION, NAVAL BASE VENTURA COUNTY PORT HUENEME, CALIFORNIA

Dear Mr. Gonzales:

The Department of Toxic Substances Control (DTSC) reviewed the *Final Action Memorandum for a Time-Critical Removal Action at IRP Site 9 Stockpile B*, dated September 15, 2004 and *Final Work Plan Time-Critical Soil Removal Action Stockpile B IR Site 9*, dated September 2004. This interim removal action will eliminate the potential for contaminants migration and exposure to contaminated soil by disposing Stockpile B. The environmental investigation for the entire Site 9 is still on going.

The Navy has addressed DTSC's comments in these final documents and DTSC approves them as written. DTSC looks forward to working with the Navy on the remediations at Port Hueneme. If you have any question, please call Peter Chen at (714) 484-5431.

Sincerely,

John E. Scandura, Chief
Office of Military Facilities
Southern California Operations
